

NEW 840

MINI LOADER

STRONG ■ COMPACT ■ VERSATILE

The Angry Ant 840 Mini Loader packs a powerful punch, plus the added manoeuvrability of front articulation and hydrostatic 4WD. Powerful enough to handle the heaviest of loads and compact enough to work in tight areas. Quality engineered and backed by an experienced Australian service and parts network, you can rest assured your Angry Ant will give you many years of loyal service. With all the attachments available, your Angry Ant is ready to tackle any task you can throw at it.

- Powerful 33 hp Kubota engine
- 3,500kg push/pull capacity
- Multi-functional joystick
- Super smooth operation
- ROPS/FOPS certified
- Hydrostatic 4WD

Engine	Kubota v1505-E3B
Cylinders	4
Cooling system	Water cooling
Rated Power	24.5Kw
Rotation speed	2800r/min
Fuel capacity	23L
Battery	60Ah 12v

▶ Power

Powered by a 33 hp Kubota diesel engine with Hydrostatic 4WD. Strong telescopic boom combined with front articulation gives the Angry Ant super agility and strength.

▶ Operation

Joystick operation and conveniently located buttons and foot pedals make the Angry Ant easy to operate. Thanks to the quick coupling system changing attachments is simple.

▶ Versatility

The compact size of the Angry Ant and the telescopic boom gives great usability in small spaces. Front and optional rear hydraulic output allows for the attachment of all kinds of machinery. Switch to a different attachment in just one minute with the quick coupling system.

▶ Easy Maintenance

A conveniently located pressure test connector allows for easy diagnosis should a problem arise. The instrument panel has warning lights for all systems and the engine cover is easily removed with 4 bolts.

▶ Safety

ROPS canopy for driver protection, rotating working light, reversing beeper and lights, cylinder protection to prevent boom failure and articulated front to reduce rollover risk.
